Passing on the reins

After 34 years, Ted and Asih Olson are at long last passing the reins of the company to long-time employee Ryan Walker and his wife Joslyn.

Ryan joined the company as a senior at Monache High School, way back in 1997. He went on to earn a BS in Computer Science at Azusa Pacific University, while remaining employed by OCS using a secure connection to the computer in his dorm room.

So it is that the great experiment we began way back in 1982 – before most people even knew what computers were and still many years before common public use of the Internet – has at last reached yet another very significant milestone.

Now, after 18 years, many changes, and two years as a VP and general manager of the company, Ryan is assuming full command and control.

The community will barely notice even a ripple. Many of our customers already know Ryan, and all of our family of dedicated staff are staying on. Ryan’s wife Joslyn will be taking over Asih’s position in the back office, handling bookkeeping and accounting.

There *will* be a couple of small changes. Our monthly newsletter will be replaced by posts to a new OACYS blog and to our Facebook page. Both will provide frequent updates on our completed and upcoming projects to better serve the community, as well as IT related news.

Ted and Asih bought a second home in North Idaho a few years ago, and they will now retire there. They enjoy hiking in the mountains, Ted loves fly fishing and skiing, and Asih will soon be busy gardening in her greenhouse. Both will remain in touch with Ryan’s company as advisors and consultants.

Words cannot express our thanks and gratitude to our many wonderful customers, and to the community that welcomed our fledgling new business way back
